

***stoanz ltd* | European plaster systems**

Latest plaster technology
in a pail

Sto the international brand

Selected with confidence worldwide.

Growth on a solid foundation

Since its establishment in 1835, Sto has undergone an astonishing course of development, from a simple German lime and cement works into one of the leading suppliers of facade insulation systems and manufacturer of high-quality exterior & interior plaster systems and coatings worldwide.

Sto AG has subsidiaries and distribution partners in over 50 countries around the globe. This presence provides Sto with a precise understanding of local climatic conditions, architectural styles, building practices, standards and tastes.

As the authorized partner of Sto for Australasia, **Stoanz Ltd** is committed to the Sto philosophy. Today having developed a full range of Sto plaster systems that have been tested and certified by BRANZ for the New Zealand market, Sto is recognized as a leader in the plaster facade and cladding market.

Sto Head office, Black Forest, Germany.

Sto with its environmental efforts is always a step ahead.

We respect the interests of people and nature at all times

In order to define and implement its ecological targets, Sto has developed a system of environmental management conforming to international standards. This relates to the entire process chain - from the procurement of the raw product, to production, packaging and logistics.

Sto products make a clear contribution towards improving the quality of the environment. StoTherm external wall insulation cladding systems are extremely energy efficient, cutting heating requirements and preventing the release of CO² emissions. These systems contribute to the effort Sto is making towards active environmental protection through reducing air pollution, heating and energy to conserve the global climate.

Sto facades

International benchmark in the field of plaster and facade systems, certified for New Zealand requirements.
